

This HOPE is our story

Our Purpose

We are a faith-aligned community hub that exists to empower, provide holistic resources, and build genuine self-sustainability in the lives of our neighbors. We are driven by authentic connections and rooted in a cultural legacy that honors the worth and dignity of all people.

Our Programs

We implement educational programming that teaches skills needed for success, health-based services that provide support practices for physical and emotional wellness, and mercy-based services that supply crucial resources and aid for families in times of need.

Our Campus

1. **PAW House** is a building for a safe and loving after school program.
2. **The Gathering Place** is a home for family programs, free behavior health, and more.
3. **Claudia's House** is a pantry which serves as a hub for food, cleaning, and hygiene supplies. We intake from various partners and distribute to individuals, schools, seniors and APD Zone One.
